The dedicated physicians of Westchester Eye Associates have served White Plains and the surrounding communities for over 39 years with unsurpassed care and passion. Today, Westchester Eye Associates is the largest eye care specialty practice in the county and one of the largest in the New York metropolitan area.

Founder Dr. Bruce Gordon and his superlative staff include Dr. Allen Greenbaum, Dr. Seth Potash, Dr. Neil Katz, Dr. James Gordon, and Dr. Edmund Farris, who are all board certified and members of the American Academy of Ophthalmology. These talented practitioners along with the on-staff optometrist, Dr. AnnMary Abadir, and highly trained ophthalmic technicians share a common goal: to provide patients the absolute best care in a warm and friendly environment.

The practice offers comprehensive eye care and contact lens fittings. The talented ophthalmological surgeons of Westchester Eye Associates use state-of-the-art diagnostic equipment and are highly experienced in the most advanced surgical techniques for cataract, glaucoma, refractive errors (LASIK, PRK), strabismus, and cosmetic eyelid procedures. Cataract patients count on the practice for premium lens implants such as Crystalens, Restor, and

Acrysof Toric intraocular lens implants.

Convenience is a hallmark of the service at Westchester Eye Associates. The on-site optical shop staffed with licensed opticians features its own lab, making it easy for patients to order glasses. The optical shop carries a comprehensive selection of designer eyeglasses and sunglasses and the opticians are experienced in fitting specialty lenses for computer use and safety eyewear for sports.

With two offices—White Plains and Yonkers—patients across the region find it easy to access the excellent care at this advanced practice. The brand new, state-of-the-art surgery center is conveniently located on Mamaroneck Avenue between the Hutchinson River Parkway and I-95. Evening and Saturday hours are always available with the doctors and the optical shop is open Monday through Saturday. In January 2014, the practice's White Plains office will be relocating to a brand new, cutting-edge facility at 450 Mamaroneck Avenue in Harrison with ample parking and an expanded optical shop that more than doubles its current size.

For superlative eye care, look no further than Westchester Eye Associates.
